**"JUST BETWEEN US"**

Never let the Truth  
Stand in the Way of a  
Good Story" was a  
popular phrase to come  
out from the long  
abandon oil fields in  
West Texas and which,  
was later cooped as a  
mantra by Ahriman's  
Great Social Reset...  
and a foundational  
Mantra of their elite...

Needless to say, this  
Ahriman Mantra was the  
rationality for their  
adoption of the Great  
Societal Lie as a means  
to protect the frail  
sensibilities of the Lost  
Children of the Great  
Reset and justified their  
numerous campaigns to  
quiet and criminalize  
common sense thought...

When truth became so unfashionable and later, when it was declared treasonous in their "You are either with us or against us" version of polite society; truth-tellers were gleefully forced out of polite society out into the Cancel Wasteland or worse...

Here in the Port of St. Louis, the Gateway to the New Tulsa Government, the people openingly reject Ahriman's failed Great Social Reset by adopting their own mantra of "The Truth will set you FREE!" which has caused many of Ahriman's Lost Children to flee seeking the safety of the People's Republic of Cleveland.

While waiting passage on a Clipper Ship headed to the FREE Lands, our friend, Emil put together this new portrait collection of the new faces there in the recently opened port complex.

We asked why portraits? He said that taking fotos of the port was a capital crime punishable by death.

To be truthful, we were rather taken back by the large number of FREE Asian Immigrants who have settled in-and-about the Port Complex of Saint Louis.

Is this a true picture?  
Or has Emil revisited his own legacy out in West Texas as a wee lad?

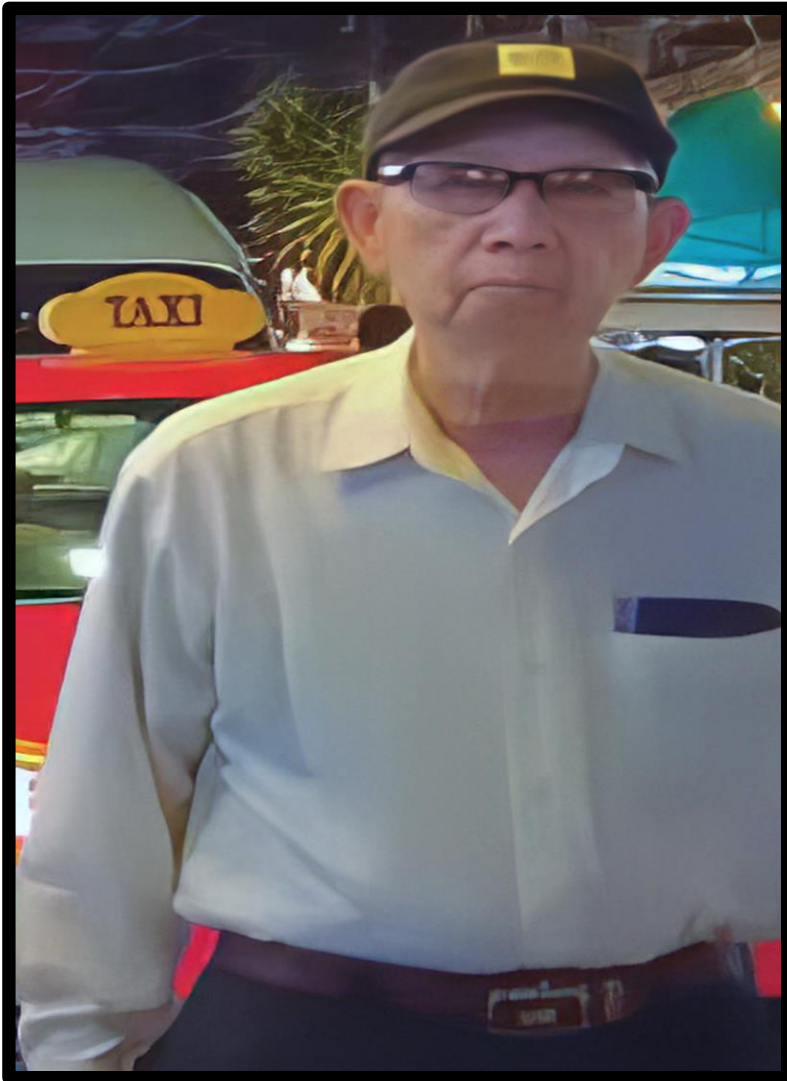

Has Emil gone over to Ahriman's dark Wokeness?

What is his truth?  
We may never truly know.  
Although, we are  
somewhat doubtful over his  
claim(s) that there are a  
large number of Vintage  
Chinese Gunboats tooling  
up-and-down the  
Mississippi River in order  
(he claims) to protect the  
many Chinese Laundries  
established in Saint Louis...

We would later learn for different sources more relivable than Emil, that the Gunboats had nothing to do with laundries but, were loaned to the break away Republic of Baton Rouge assisting them to secure safe passage of river commerce from attack by the rouge DHL Pirates...

Needless to say but important to note is that truth can be subjectively based upon who is telling you the story and this Gunboat Rumor is a prime example of the slippery slide we have taken as a society and we are still left wondering if there is still a little too much West Texas in Emil too?"

So, we let you decide...
